SLEEK AND SMART

Designed with simplicity and modernity, the smart and sleek Yutong E9 is a feast for the eyes for your city.

COMFORTABLE AND TASTEFUL

Advanced technologies enable Yutong E9 to create a considerate and comfortable environment for drivers and passengers, making trips more enjoyable.

SAFETY ASSURED

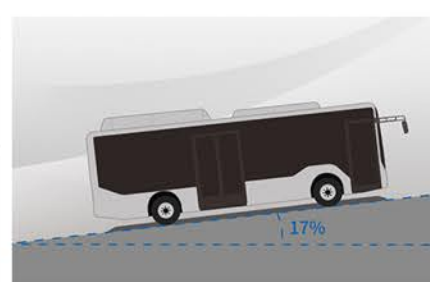

Operation system safety: Aluminum alloy rims and EBS & ESC systems improve driving safety.

World leading bus body cathode electrophoresis: Significantly improve corrosion resistance and durability, thereby boosting economic benefits throughout the product life cycle.

Five-in-one integrated controller: Effectively simplify and standardize high-voltage components, wiring harnesses, etc. to reduce failure rate.

ECONOMIC AND DYNAMIC

Strong power: Ease of driving ensured by 120/240 1400NM high-power high-torque motor, 17% maximum gradeability, and <15s 0-50km/h acceleration time.

Outstanding handling: Turning radius<8m, making it easier to cross narrow roads.

WORRY-FREE OPERATION

Low energy consumption and long driving range.

Ease of charging: EU standard charging port for easy charging.

Light maintenance design: Flipable, detachable front wall and wide-angle rear compartment door makes it easy to maintain commonly used parts.

Maintenance-free battery: Maintenance-free design with rotary structure, easy to install and remove.

Aluminum alloy air duct: Each segment is accessible for easier examination and repair.

Specification

Basic parameters

Dimension(mm)	8940*2420*3295
G.V.W.(kg)	9750
Max. speed(km/h)	80
Energy storage system (kWh)	255.48 liquid-cooled

Chassis	Chassis manufacturer	Zhengzhou Yutong Bus Co., Ltd
	Brake system	WABOC EBS, ESC
	Tire	265/70R19.5
	LHD/RHD	Left hand steering
Body	Seats	21+1
	Approach/departure angle(°)	10/10
